

ROLL OF HONOUR.

The subjoined list has been revised, and so far as our information goes, brought up to date. There must of course be many omissions, and probably there are several inaccuracies. We should welcome additions to, and corrections of the Roll. No analysis of the Roll has been attempted as yet. We hope to do this when our information is more complete. The task of compiling such a long list is a difficult one (1) as our information is obtained only in a haphazard way, (2) as there are many changes in rank occurring from time to time and (3) as there are new names to be added almost daily.

The Editors appeal to all boys, present or old, to send them any additional names etc. they may know of.
